

CBB 2026

A Feast of Innovation for the Liquid Food Industry, Leading to New Trends for Future Development

Focusing on Innovative Technology to Create a New Future for Liquid Foods

Total Exhibition Area
100,000 square meters

900+
Exhibitors

Total number of visitors
80,000+
(from 90 countries®ions)

National/Regional Pavilions
9

Number of Buyer Groups
100+

*Overview of the scale
of the exhibition
(estimated)

Against the backdrop of a complex and volatile global economic environment, China's economy still maintains a stable development trend. According to data released by the National Bureau of Statistics (NBS), China's GDP reached 134,908.4 billion yuan for the year 2024, an increase of 5.0% from 2023, showing strong growth potential and resilience. This provides a stable economic foundation and broad development space for the liquid food industry. "CBB Liquid Food Industry Exhibition" will be grandly opened in 2026, which will set up a top platform for communication, cooperation and innovation for upstream and downstream enterprises of the global liquid food industry chain.

Transition from Digital to Practical to Advance Smart Manufacturing

CBB 2026 will bring together the latest automation and digitalization of liquid food production equipment and technology, leading the industry to a new stage of intelligent manufacturing.

Explore the Circular Economy and Embrace Green Production

CBB 2026 will actively promote energy-efficient machinery and equipment, sustainable green materials, and efficient recyclable solutions to help the liquid food industry achieve the goals of green, low-carbon and sustainable development.

Made in China, Toward High-end Technology

Under the strong support of national policies, many "Specialized and Innovative" enterprises have continuously boosted their investments in product development and production process enhancements. CBB2026 will bring together more such outstanding enterprises to fully demonstrate the technological strength and innovative achievements of China's liquid food industry to global buyers, and further enhance the global influence of "Made in China".

Innovative Materials Breakthrough Application Boundaries

CBB 2026 will invite the world's leading suppliers to showcase the latest materials and technologies, and together we will explore the unlimited possibilities of innovative materials in the liquid food industry.

Highly Internationalized Audience and Global Business Opportunities

CBB 2026 will become an international event that gathers elites from the global liquid food industry and seeks for development plans together.

Visitor Profile

Alcoholic Beverages	Beverages	Drinking Water	Seasonings	Dairy Products
Baijiu	Fruit Wine	Purified Water	Soy Sauce	Pure Cow's Milk
Huangjiu	Rice Wine	Mineral - added Water	Vinegar	Nutritionally - fortified Milk
Beer	Medicinal Wine	Natural Mineral Water	Fish Sauce	Re - combined Milk
Craft Beer	Fruit and Vegetable Juice Drinks		Cooking Wine	Flavored Milk
Whisky	Protein - based Drinks		Cooking Oil	Low - lactose Milk
Wine	Functional Drinks		Sesame Oil	
	Fermented Drinks		Chinese prickly ash Oil	
	Alcoholic Beverages			
	Specialty Drinks

Fascinating Concurrent Events Lead the New Development of the Industry

A variety of fascinating concurrent events and high-level forward-looking exchanges bring together industry stakeholders to discuss new trends, technologies, and products, promoting collaborative development across the entire industry chain.

Beer Technology Forum

Beverage Intelligent Manufacturing
Innovation Technology Forum

Sustainable Liquid Food
Innovations International Forum

Collaborative Innovation Exchange
Conference for Traditional Fermented
Foods Industry

China International Craft Beer
Summit Forum

Packaging Drinking Water
Industry Innovation Summit

*Only part of the events, final list will be subjected to on-site confirmation.

Range of Exhibits

www.chinabrew-beverage.com

Liquid Food Processing Technology and Equipment

Raw Material Handling
Malt Preparation
Scarification and Fermentation
Distillation and Purification
Filtration and Separation
Yeast Management
Craft Beer Brewing
Blending and Mixing
Sterilization and Disinfection
Extraction and Juicing
Pulping and Slurry Preparation
High-Temperature Sterilization
Degassing and Deoxygenation
Homogenization and Emulsification
Others

Liquid Food Packaging Technology and Equipment

Mold Making
Bottle Blowing
Container Cleaning
Filling and Sealing
Labeling and Sleeving
Coding and Marking
Heat Shrink Packaging
Carton Packaging
Packing and Unpacking
Palletizing and Depalletizing
Film Wrapping
Storage and Logistics
Testing Equipment
Others

Supporting Technology, Materials, and Components

Chain Plates
Conveyor Systems
Water Treatment
Heat Exchange
CIP Systems
Sterile Environments
Instruments and Meters
Laboratory Instruments
Tube Plate Sterilization
Tunnel Sterilization
Filtration and Separation
Filter Elements and Meshes
Pressure Vessels
Caustic Recovery
Carbon Dioxide Recovery
Heat Energy Recovery

Biogas Recovery
Plastics and Rubber
Draft Beer Machines
Draft Beer Kegs
Dispensers
Vending Equipment
Others

General Technical Equipment and Automation Components

Automation
Refrigeration
Heating
Air Preparation
Pumps, Valves, and Fittings
Hydraulic Components
Pneumatic Components
Motors
Reducers
Other Basic Mechanical Components
Metal Processing
Chemicals
Adhesives
Spraying Glue
Cleaning and Disinfection Agents
Measuring Instruments
Analytical Instruments
Recorders
Sensors
Environmental Protection
Energy Conservation
Purification
Comprehensive Utilization
Others

Packaging Containers

Bottles, Cans, Barrels, Boxes, Bags, Caps, Stoppers, Labels,
Films, Others

Raw Materials and Additives

Raw Materials, Ingredients, Additives, Enzymes, Stabilizers, Hops
and Hop Products, Yeast, Barley and Malt, Others

Professional Institutions

Trade Associations
Research Institutes
Training Institutions
Professional Media
Consulting Services
Trade Agencies
Others
